Career Objective

Motivated Computer Science graduate seeking a Web Developer role to build responsive and user-friendly web applications using HTML, CSS, and JavaScript. Passionate about developing clean, efficient interfaces and improving overall user experience. Eager to learn modern technologies and contribute to a collaborative development team.

Education

B.Tech – Computer Science & Engineering (IoT)

Ace Engineering College, Hyderabad

2022 – 2026 — CGPA: **7.1**

Intermediate (MPC)

Jagruthi Junior College

2018 – 2020 — PERC: **54**

SSC

T S Residential High School

2017 – 2018 — CGPA: **9.8**

Projects

Smart Dustbin

- Developed an IoT-based Smart Dustbin using **ultrasonic sensors** to monitor garbage levels.
- Integrated **microcontroller** with **Wi-Fi module** to send data to a cloud dashboard.
- Implemented automatic lid opening using proximity detection.
- Designed alert system for threshold capacity.

Smart Keychain

- Designed IoT Smart Key Chain using **Bluetooth/GPS** tracking.
- Integrated mobile app **buzzer alert** system.
- Implemented low-power rechargeable battery design.
- Developed proximity-based notification.

Simon Game

- Built interactive memory game using **HTML, CSS, JavaScript**.
- Added animations, sound effects, and button feedback.
- Implemented increasing difficulty with score tracking.

Technical Skills

Programming: Java, SQL

Web Technologies: HTML, CSS, JavaScript

Tools: Git, GitHub

Certifications

- UiPath: Automation Explorer for Students
- IRJIET - IoT-Based Smart Key Chain

Strengths

- Strong foundation in Computer Science principles
- Quick learner, adaptable to new tools & technologies
- Problem-solving mindset with attention to detail
- Effective team collaboration and communication skills
